

Faculty Workshops

Skills and Technologies for Teaching Online (and in-person)

Join the Academic Commons this August for workshops on technologies like Canvas and Panopto, which will help faculty teach most effectively, whether your classroom is online or in-person. Workshops will give faculty hands-on practice with these tools and workshop facilitators can answer questions and give tips for faculty preparing to teach online this fall. Click on a workshop title below to read descriptions and register, or browse our complete list of workshops **on our website**.

August Workshops

Canvas Camp (4 sessions)

Tuesday, August 11 | 12:30 - 4:30 p.m.

- The Course Overview & Syllabus
- Managing Content
- Using and Organizing Modules
- Creating and Grading Assignments

This four-part workshop (can be taken as stand-alone sessions) will offer hands-on development of skills critical to Canvas course design.
