

The Academic Commons

Fall 2021 Workshops

The Academic Commons supports faculty, researchers, students and postdocs across the university by promoting teaching excellence and supporting professional research, writing, and publication goals. Our Fall 2021 workshops will all be held online. Click on a workshop title below to register. Read complete workshop descriptions at library.jefferson.edu/tech/training.cfm

Video Editing with iMovie and Adobe Rush

Thursday, September 9, 10 - 11 a.m.

Learn how to edit recorded lectures using these two simple and readily available video editing programs. The workshop will go over the basics, such as trimming, cutting, adjusting audio, and combining multiple videos into one.

Turn Your Thesis into a Publishable Manuscript

Wednesday, September 15, 12 - 1 p.m.

Turning your thesis into a journal article lets you share your research with a wider audience. In this workshop, you'll learn about efficient strategies to modify your thesis for publication and resources that can help you in this process.

Claiming Your Identity as a Researcher and Measuring your Research Impact

Wednesday, September 22, 12 - 1 p.m.

Learn different ways to frame your research by utilizing resources and services (ORCID, SciENcv, Google Scholar, and Scopus Author ID) designed to help you measure your impact.

Find the Time: Time Management

Wednesday, September 22, 1 - 2 p.m.

This session will give you tools and strategies to begin finding the time to do things that you value. Learn how to evaluate what you spend time doing, prioritize activities using the Eisenhower matrix, and determine ways to protect your time.

Responding to Reviewers' Comments

Wednesday, October 13, 1 - 2 p.m.

In this workshop, we'll look at ways to make the process of responding to reviewers' comments less painful and more productive. Learn how to interpret and respond to reviewers' comments using a simple tool.

Leveraging Open Educational Resources (OER) and Open Pedagogy to Support Students & Promote Educational Equity

Tuesday, October 26, 12 - 1 p.m.

The use of Open Educational Resources (OER) is growing. At this session learn the reasons behind the increased interest in OER, get tips on how to search for OER resources effectively, and find out how the library can support you in using OER.

Evidence Synthesis for Evidence-Based Teaching

Friday, October 29, 12 - 1 p.m.

This workshop will show you how to find evidence synthesis publications about teaching practices. Learn options for publishing evidence synthesis projects on education topics, such as the Best Evidence Medical Education (BEME) Collaboration.
